

## South Hills Kiwanis and the Hafif Foundation and Donald Sterling Foundation

This is the first year that South Hills Covina Kiwanis has participated with the Hafif Foundation in the Concert Under the Stars program. It has become our most successful fundraiser to support the many community programs that we sponsor or participate in. We have been responding to the needs of the City of Covina in various ways including sponsoring three Key Clubs and Future Farmers of America in the high schools, provide drivers for Meals on Wheels, and provide college bound students scholarships, among other things. We traditionally have used Pancake Breakfasts and Cow Chip Bingo to raise funds for these projects. We are very grateful for the support of the Hafif foundation and look forward to working together in the future.

President Joel Beezy was invited to address the 1,300 concert goers on August 11 to talk about the achievements of South Hills Kiwanis. Harry Anderson, Sponsored Youth and club secretary George Bishop joined him on stage.

Also, for a third year in row we worked with the Donald Sterling Foundation to provide sports outings for high school students and sponsor youth to attend professional basketball games. We look forward to taking members of Key Club, Future Farmers of America, and other students in the community to Clipper basket ball games this coming NBA season. The evening provides a fun opportunity for students who may otherwise not ever get the chance to see a professional basket ball game.

Joel Beezy & Donald Sterling

These two events teach us the lesson of community involvement and the benefits of collaboration with other foundations towards a common goal. The Kiwanis Club of South Hills are very pleased to work with the Hafif and Donald Sterling Foundations to make a difference in the lives of our community members. We must remember that to make a difference, all it takes is community support.
